Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is in response to Election mailed April 1, 2004. Applicant elected Species II, which applicant states pertains to Figs. 5, 8A-9B and 15A-25B and claim 25.

Election/Restrictions

Applicant's election of Species II, claim 25 in Paper mailed April 1, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

This requirement is deemed proper and is made FINAL.

This application contains claim 19-24 and 26-38 drawn to an invention nonelected with traverse in Paper received April 1, 2004. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 25 is rejected under 35 U.S.C. 102(e) as being anticipated by Sato (US 6,118,915).

Sato discloses an optical module comprising optical fibers (8) protruding portion and tips (Fig. 1); an optical connector section (12) for connecting to an outside optical connector, the optical connector section having inserted there into and securing the optical fibers (Fig. 1); a light emitting element (8a); a light receiving element (core of optical fiber 8 on side opposite 8a); two mounts (10 on both sides) on which are mounted the light emitting and light receiving elements (Fig. 1); a package (9) comprising a positioning structure comprising walls (Fig. 1); the optical fibers protrude to the inside of the package (Fig. 1); the walls of the positioning structure directly contact the side faces of the mounts (Fig. 1); wherein each of the tips of the optical fibers being arranged so as to oppose one of the light emitting face of the optical elements and a light receiving face of the optical elements (Fig. 1); the positioning structure positions the mounts at predetermined positions so that the light emitting face or the light receiving face opposed at least one of the tips of the optical fibers (Fig. 1); and the positions of the two mounts differ in the longitudinal direction of the optical fibers (Fig. 1).

Conclusion

Art Unit: 2872

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua L Pritchett whose telephone number is 571-272-2318. The examiner can normally be reached on Monday - Friday 7:00 - 3:30.
